

WAC 296-307-59605 Designate a program administrator.

Exemption: You do not need to designate a program administrator if employees use only filtering-facepiece respirators and do so only as voluntary use.

Definition:

Voluntary use is respirator use that is requested by the employee AND permitted by the employer when **NO** respiratory hazard exists.

You must:

- Designate a program administrator who has overall responsibility for your program and has sufficient training or experience to:
 - Oversee program development and coordinate implementation
 - Conduct required evaluations of program effectiveness outlined in WAC 296-307-60005.
